Marikina City Health Office (MCHO)

Marikina City:
The city in the pink of health.

Health is

the building block of an economically progressive and productive community

Vision

A united, cooperative and highly professional staff of health care delivery workers whose focus and passion is to help the community become a conducive, healthy and productive environment using the most modern technology and health care delivery system to respond to the needs of its members, thereby making the MCHO a model office that is respected, trusted and recognized by the local officials and loved by the community.

Mission

Providing health care services to the community particularly the poor and vulnerable groups (lacking mothers, malnourished children, school children, pregnant mothers, etc) so that they can contribute actively, productively and participate meaningfully in community life, practicing healthy lifestyles.
